

**I can not believe It is already the middle of August. Besides children back in school and the first week of NFL games it is also a time when we should begin to think about the coming elections ...scheduled for October...for next years Board.**

**It has been a great year for everyone...and collectively we have accomplished many things...from setting ARC policies & procedures to revising our modification request form and helping our neighborhood friends and neighbors.**

**I would like to thank each of you for your continued hard work, time and support of the ARC and our Community homeowners. We have a great ARC team.**

**We have a super Community and I know all of you want to keep it that way.**

**We continue to need "volunteers" to make it work....great folks....just like each of you.**

**I really do not want to see our community turned over to any management agency nor do I want an increase in our annual dues based upon a lack of volunteers**

**All this said, I intend to step down after the elections at the end of the year, so I would like to ask each of you to consider taking over the ARC Chairmanship or perhaps even running for a spot of the Board.**

**I hope each of you will seriously consider stepping forward.**

**Again...my profound thanks to everyone.**

**Barry**
